**Library**

The school library is an excellent resource for students and staff. There is plenty of space for completing homework, reading and researching. There are fixed desktop computers and laptops available to use to support students with their studies.

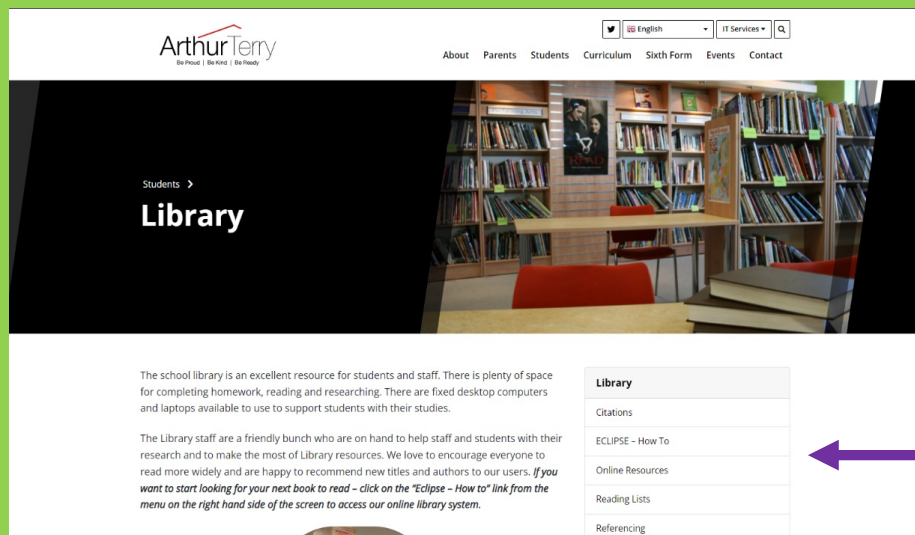

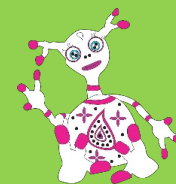

The Library staff are a friendly bunch who are on hand to help staff and students with their research and to make the most of Library resources. We love to encourage everyone to read more widely and are happy to recommend new titles and authors to our users. ***If you want to start looking for your next book to read - click on the "Eclipse - How to" link from the menu on the right hand side of the screen to access our online library system.***
