

July 2022

Dear Parent/Carer,

At the Arthur Terry Learning Partnership, children are at the heart of everything we do. Our aspiration, through our 'One Trust' vision, is to bring an inspirational and highly ambitious education experience to all children, at each and every one of our schools.

To help deliver this, we are delighted to announce the launch of our **Learning Futures** project, which will enhance education through the use of digital technology for all our students at Arthur Terry School and the Arthur Terry Learning Partnership.

The core objective of **Learning Futures** is to immerse and embed technology within learning and teaching, enhancing opportunities and outcomes for all. To facilitate this, we have committed to provide every child with the technological tools to help prepare them for a future that will require a wide range of skills and knowledge.

We are pleased to announce that Arthur Terry School is included in Phase 1 of **Learning Futures**. This means that every child will receive a fully funded iPad to use in lessons and at home **from January 2023**. To ensure the effective use of technology, teachers will continue receive ongoing professional development. iPads will be used to enhance the existing curriculum.

To help make **Learning Futures** a real success, we are committed to ensuring you, as parents or carers, will have all the information and support you need in engaging with this exciting stage of your child's time with us. More information will be provided in the autumn term. Please refer to the FAQ link below which should answer any queries or questions you may have.

Please familiarise yourself with the policies below that relate to the ATLP Learning Futures Project:

- [ATLP E-Safety Policy](#)
- [ATLP Acceptable Use Policy – Students](#)
- [FAQs](#)

We look forward to the launch of the Learning Futures Project and seeing the transformational impact it will have on all those within our school community.

Kind regards,

Mrs S Kibble
Headteacher
