

Dear Parent/Guardian/Student,

All students are about to embark on a very important, but exciting, new stage of their education journey. Here in the Maths Department, we hope that they will find their studies stimulating, thought provoking, challenging at times, but above all enjoyable. We would be doing you a disservice if we said that Maths A level was an easy option, it isn't, but with determination and the correct work ethic it is attainable and satisfying.

Along with all A level subjects, students need to complete independent study outside of the classroom to consolidate their knowledge and understanding. To be able to successfully do this they need access to their own textbooks. These will provide further examples, notes and practice for students. Therefore, it is essential that students purchase their own copies, for use both in and out of lessons.

The books are published by Pearson and the details are as follows:
