

6th March 2025

Dear Parent/Carer,

As part of our personal development and post-18 offering at the Arthur Terry Sixth Form, I am delighted to announce that your child has been signed up for an account on Unifrog. This is an online platform which allows students to research career opportunities, university courses, apprenticeships and much more, in order to equip and inform students for their next steps after Sixth Form.

Over the coming weeks and months, we would encourage your child to use Unifrog on a regular basis. By completing initial course and career research, taking part in MOOCs (massive online open courses) and virtual work experience placements, students will be well-equipped to stand out on future university, apprenticeship or work applications. Today's assembly which launched Unifrog to the current Year 12 cohort is available on their Microsoft Teams channel, should your child wish to go over any of the material.

Thank you for your support. Should you have any further questions about our post-18 pathways support, please visit the Arthur Terry Sixth Form website (www.arthurterry.bham.sch.uk/sixth-form) or email us at sixthform@arthurterry.bham.sch.uk.

Yours faithfully,

Neil Coleman

Director of Sixth Form
